## THE APPLICATION RETIREMENT PROCESS

Platform 3 Solutions brings the domain expertise and knowledge to help their digital transformations.

Archon, an application and database profiling tool that analyzes data relationships, maps and secures referential integrity, and applies meta data to understand your legacy systems. We then automate and compliantly archive your application providing a chain of custody, secure and role-based access to pre-built reports and screen .

## THE ADVANTAGE

- ✓ Seamless Connectors to Your Systems
- ✓ Metadata and Data Enhancement with Analytics and Machine Learning
- ✓ Referential Integrity and Chain of Custody
- ✓ Multi-Threaded Extraction/Load Processing
- ✓ Flexible Output Formats
- ✓ Automatic Repository Configuration
- ✓ Automatic Query Screen Generation

### COST EFFICIENCY

- Speed up migrations, archiving and retirement cycles up to 80%
- Reduce up to 100% application maintenance and infrastructure costs.
- Decommission end-of-life technology
- Little-to-no SME needed

### COMPLIANCE & GOVERNANCE

- Chain-of-custody maintained
- Referential data integrity
- Automated retention policies to data sets
- Automated redaction to sensitive personal, credit and health data
- SSO and LDAP enabled

### SIMPLIFICATION & AUTOMATIONS

- Wizard driven configurations
- Pre-built adapters
- Machine learning engine
  - Discover relationships and cardinality
- Stored procedure analysis
- Automate entity-relationship
